

Resonant High Growth

Performance Report

RESONANT ASSET MANAGEMENT

Resonant Asset Management is a professional investment management firm based in Perth and Sydney which specialises in Separately Managed Accounts ("SMA"s).

SMA SPECIALISTS

Resonant's main focus is SMA's, which we believe provide investors with greater flexibility, transparency and control over their investments. Unlike many other asset managers, Resonant's investment approach is specifically tailored to compliment the unique advantages of the Separately Managed Account structure.

INVESTMENT PHILOSOPHY

Resonant's core belief is that investment outperformance can be achieved by applying a rigorous, robust and systematic investment process, as demonstrated by its track record*.

INVESTMENT APPROACH

At Resonant we use a "Quantamental" approach when it comes to portfolio management. Quantamental Investing combines traditional "fundamentals" based investment analysis with modern quantitative techniques, in order to achieve a "best of both worlds" approach to investing. Resonant also uses these quantitative tools to better monitor and manage investment portfolio risk. Resonant takes advantage of advances in data and technology, as well as the latest low cost investment structures. This allows Resonant to keep overall portfolio fees lower, passing on greater returns to investors.

Performance Report

MODEL OVERVIEW

To invest in an actively managed diversified portfolio of direct securities, managed funds and ETF's across a broad range of asset classes. The portfolio is optimised to aim for the highest level of return whilst remaining in a high growth portfolio allocation set out below. As a result, asset allocations may vary depending on market conditions and correlations, however it is expected that over a full economic the portfolio will consist of predominantly domestic and international shares.

Notes on Returns: The returns presented reflect the performance of Resonant's headline managed model portfolios only, they do not reflect individual investor returns. The managed model returns are shown net of any underlying investment product fees. The returns do not include any adviser fees or platform fees. The returns do not include the benefit of franking credits and are shown before tax. Please note the actual returns of individual investors will differ due to adviser fees, platform fees, franking credits, market timing and realised trading costs. Client specific circumstances such as the investor's tax rate and any client directed holdings or exclusions will also influence individual returns. The "inception date" used in this report, being ist July 2010, reflects the date that Resonant's "Quantamental" investment process was implemented by Libero Capital, formerly a related entity of Resonant. Resonant was "spun out" of Libero Capital in 2017. In February 201 8 Resonant launched a suite of SMA models on the Netwealth platform. Fees: For the fees related to this product and their breakdown, please refer to the PDS.
