## RESONANT ASSET MANAGEMENT

Resonant Asset Management is a professional investment management firm based in Perth and Sydney which specialises in Separately Managed Accounts ("SMA"s).

### SMA SPECIALISTS

Resonant's main focus is SMA's, which we believe provide investors with greater flexibility, transparency and control over their investments. Unlike many other asset managers, Resonant's investment approach is specifically tailored to compliment the unique advantages of the Separately Managed Account structure.

### INVESTMENT PHILOSOPHY

Resonant's core belief is that investment out-performance can be achieved by applying a rigorous, robust and systematic investment process, as demonstrated by its track record\*.

### INVESTMENT APPROACH

At Resonant we use a "Quantamental" approach when it comes to portfolio management. Quantamental Investing combines traditional "fundamentals" based investment analysis with modern quantitative techniques, in order to achieve a "best of both worlds" approach to investing. Resonant also uses these quantitative tools to better monitor and manage investment portfolio risk. Resonant takes advantage of advances in data and technology, as well as the latest low cost investment structures. This allows Resonant to keep overall portfolio fees lower, passing on greater returns to investors.
